2025 PROFILE

About Us

Building Excellence, Delivering Trust

Established in 2015, Mei-Tech Engineering Company Limited has rapidly evolved into a premier specialist contractor for the hospitality and construction sectors. Our commitment to quality is demonstrated through our successful delivery of projects for major international clients, including the renowned Sands Group at The Venetian® Resort in Macau.

Our pursuit of excellence is further realized through strategic collaboration. We have established 2023 a joint venture with a MEP (Mechanical, Electrical, and Plumbing) contractor in Singapore. This powerful partnership has successfully delivered significant projects, most notably the comprehensive air-conditioning system retrofit for the Phase One hotel at Marina Bay, Singapore. This achievement underscores our exceptional capability to execute large-scale, complex MEP projects and meet the stringent standards of world-class hotels.

Why Us?

Our commitment to quality extends from our own team to our entire supply chain.

We differentiate ourselves through:

- Proven Track Record with Industry Leader: We are proud to have been entrusted by world-class clients like The Venetian® Resort Macao.
- Strategic Partnerships & Major Project Expertise: Through our joint venture, we possess direct hands-on experience and technical prowess in executing top-tier MEP projects in Singapore, such as the Marina Bay hotel air-conditioning renovation.
- A Curated Network of Specialist Partners
- Specialist In-House Services
- A Culture of Continuous Improvement

Strategy

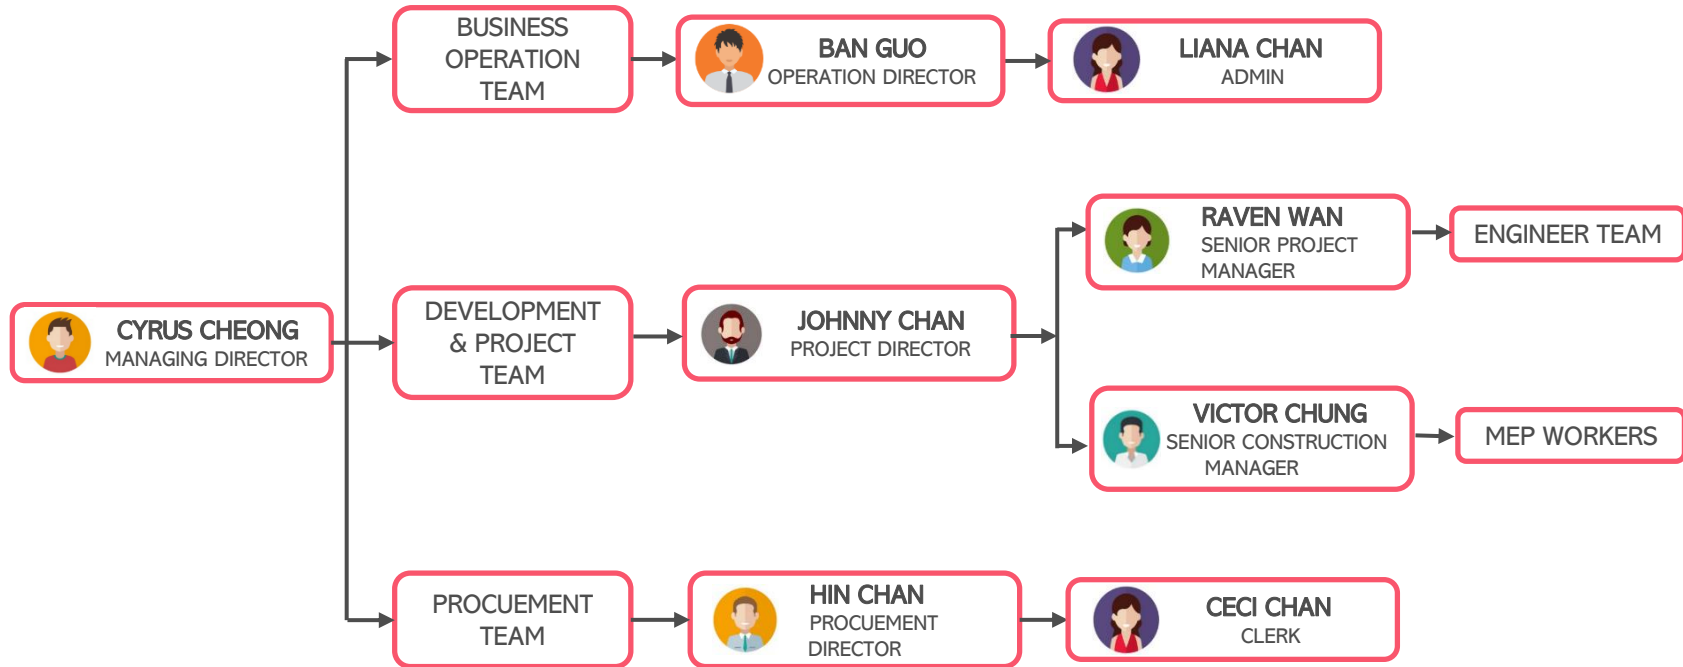

Our Strategy

Our Vision To be the preferred engineering and construction partner for global brands by delivering exceptional, cost-effective solutions that forge lasting relationships and set new benchmarks for quality.

Our Mission

We are committed to providing innovative and sustainable solutions by leveraging the talent of our experienced team and the strength of our established partnerships. We uphold the highest standards of professional quality, safety, and ethical practice to meet and exceed our clients' expectations, timelines, and budgetary requirements
